

AMERICAN FARM BUREAU FEDERATION®

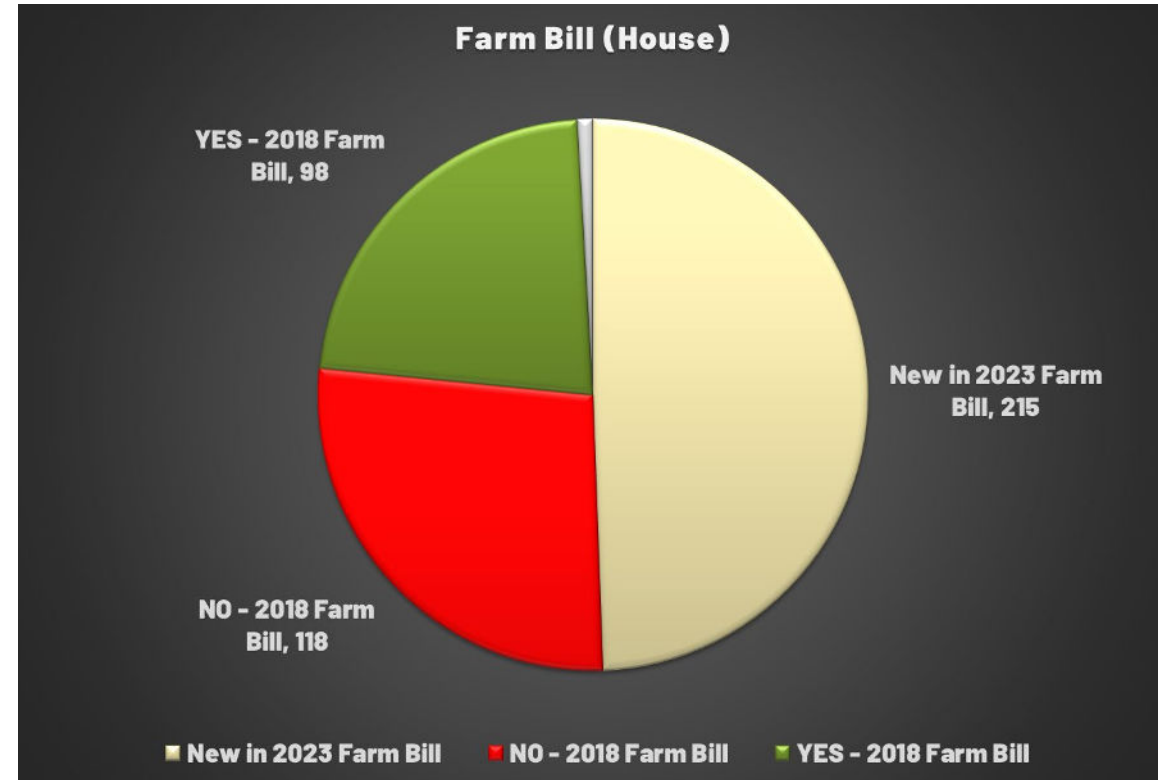

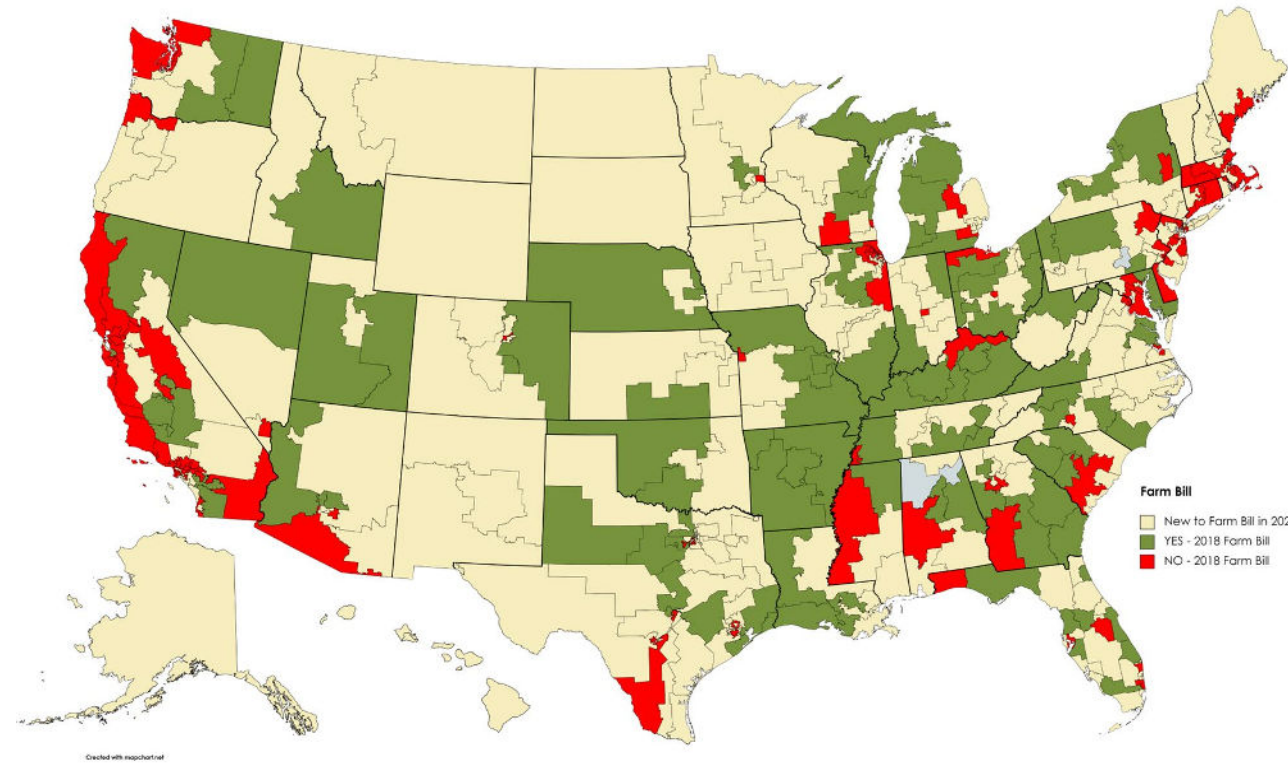

State of the 2023 Farm Bill

2023 Farm Bill

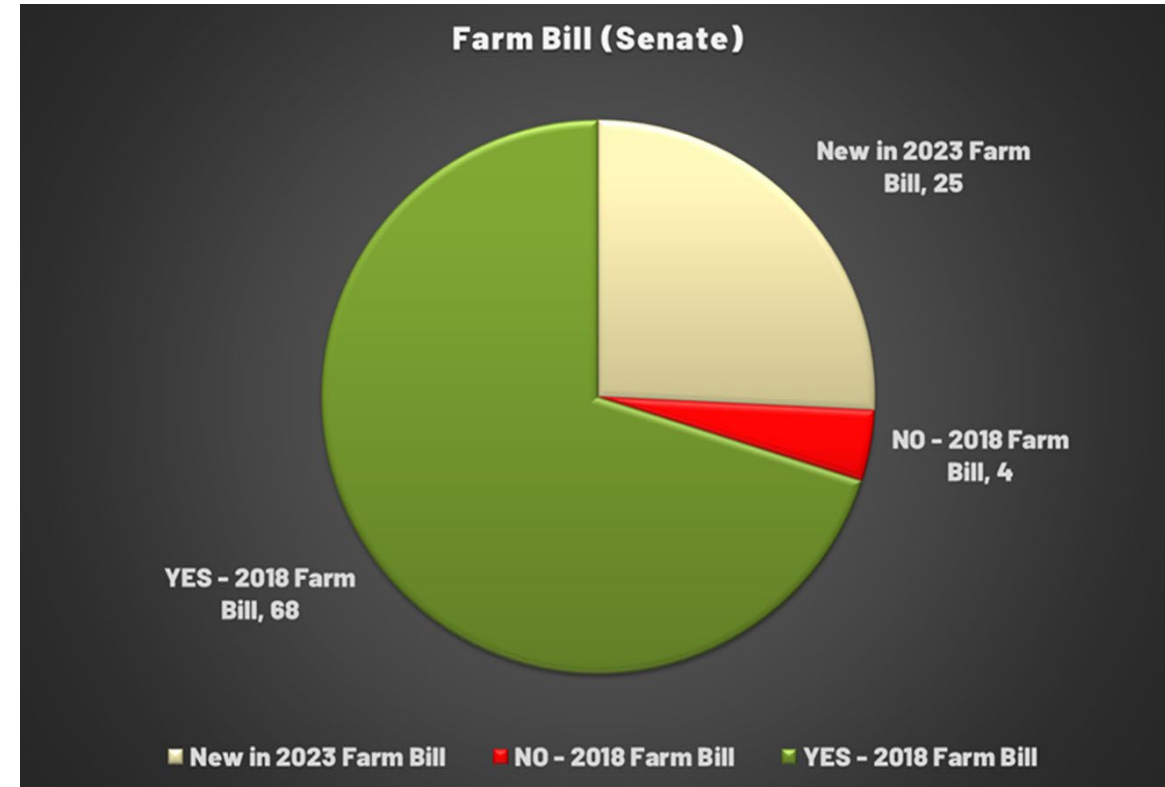

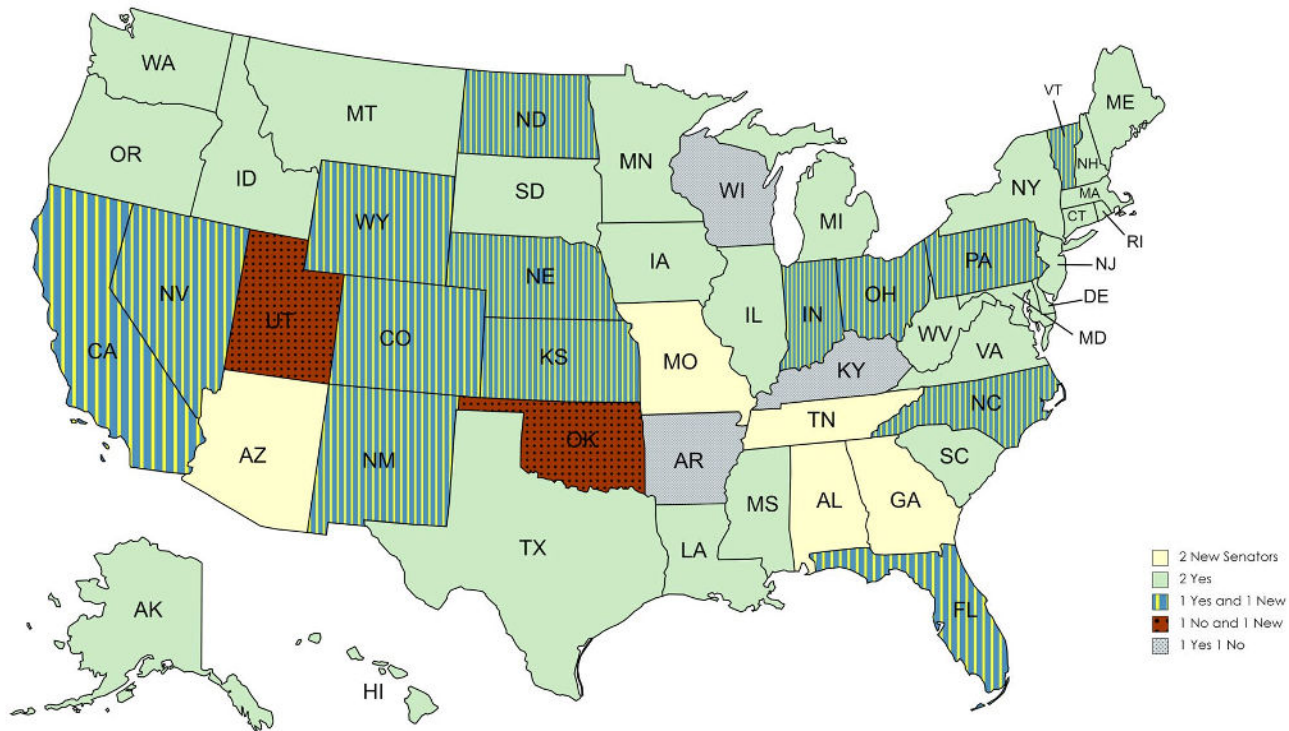

- Our engagement and advocacy efforts ramping up
- We are collaborating across Farm Bureau, the ag community and beyond

2023 Farm Bill – House Map

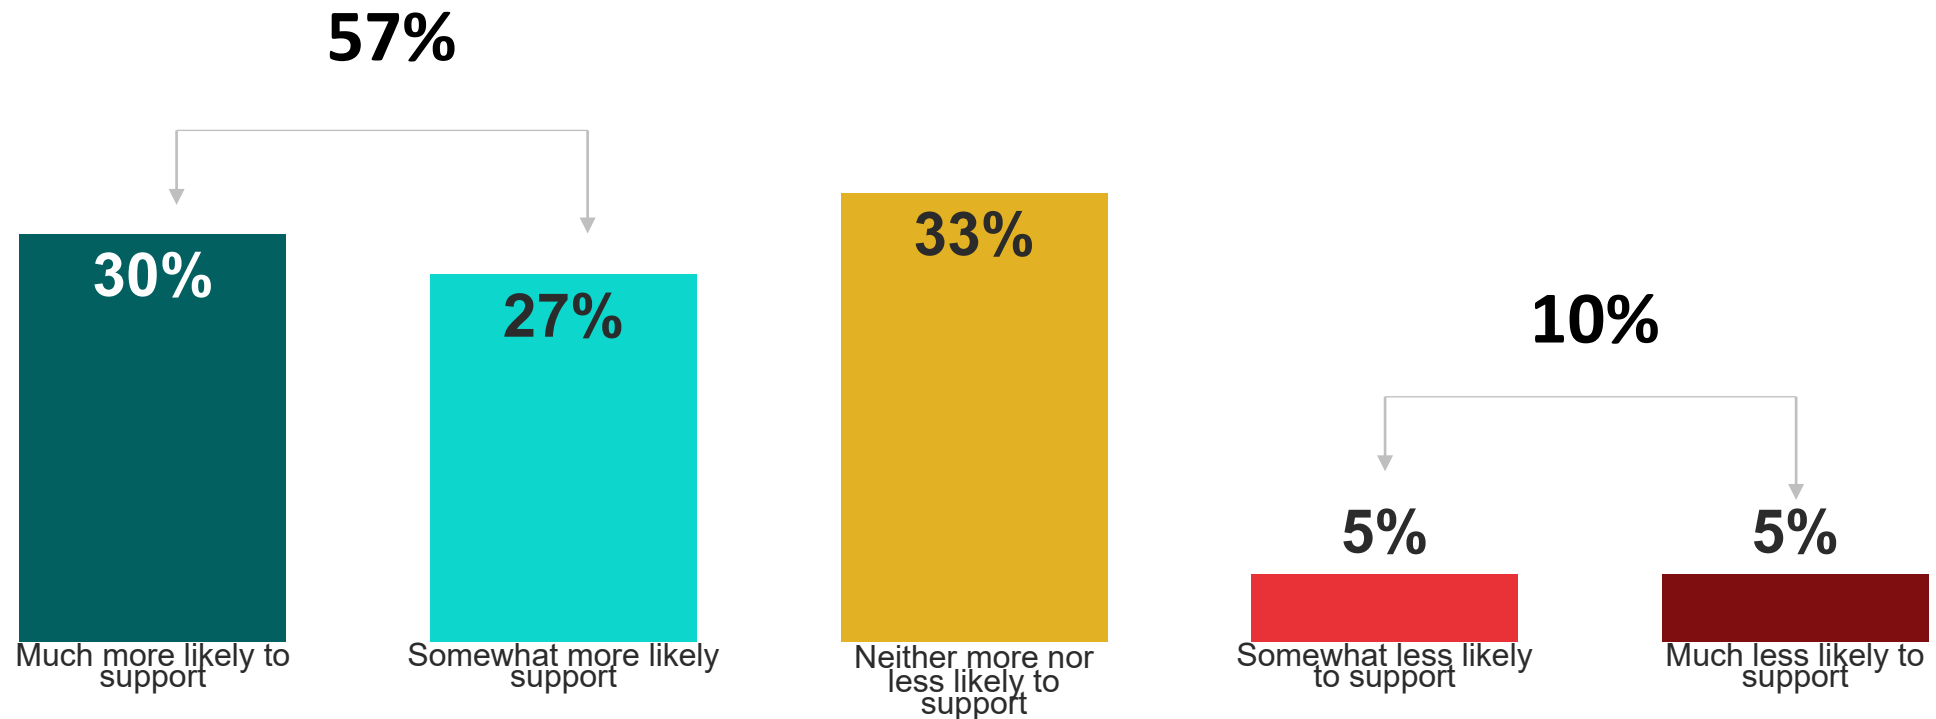

2023 Farm Bill – Senate Map

71% of adults have not seen, read or heard much about the farm bill, and 42% have not seen, read or heard anything at all.

Over half of adults say they would be *more likely* to support their member of Congress if they voted to reauthorize the farm bill.

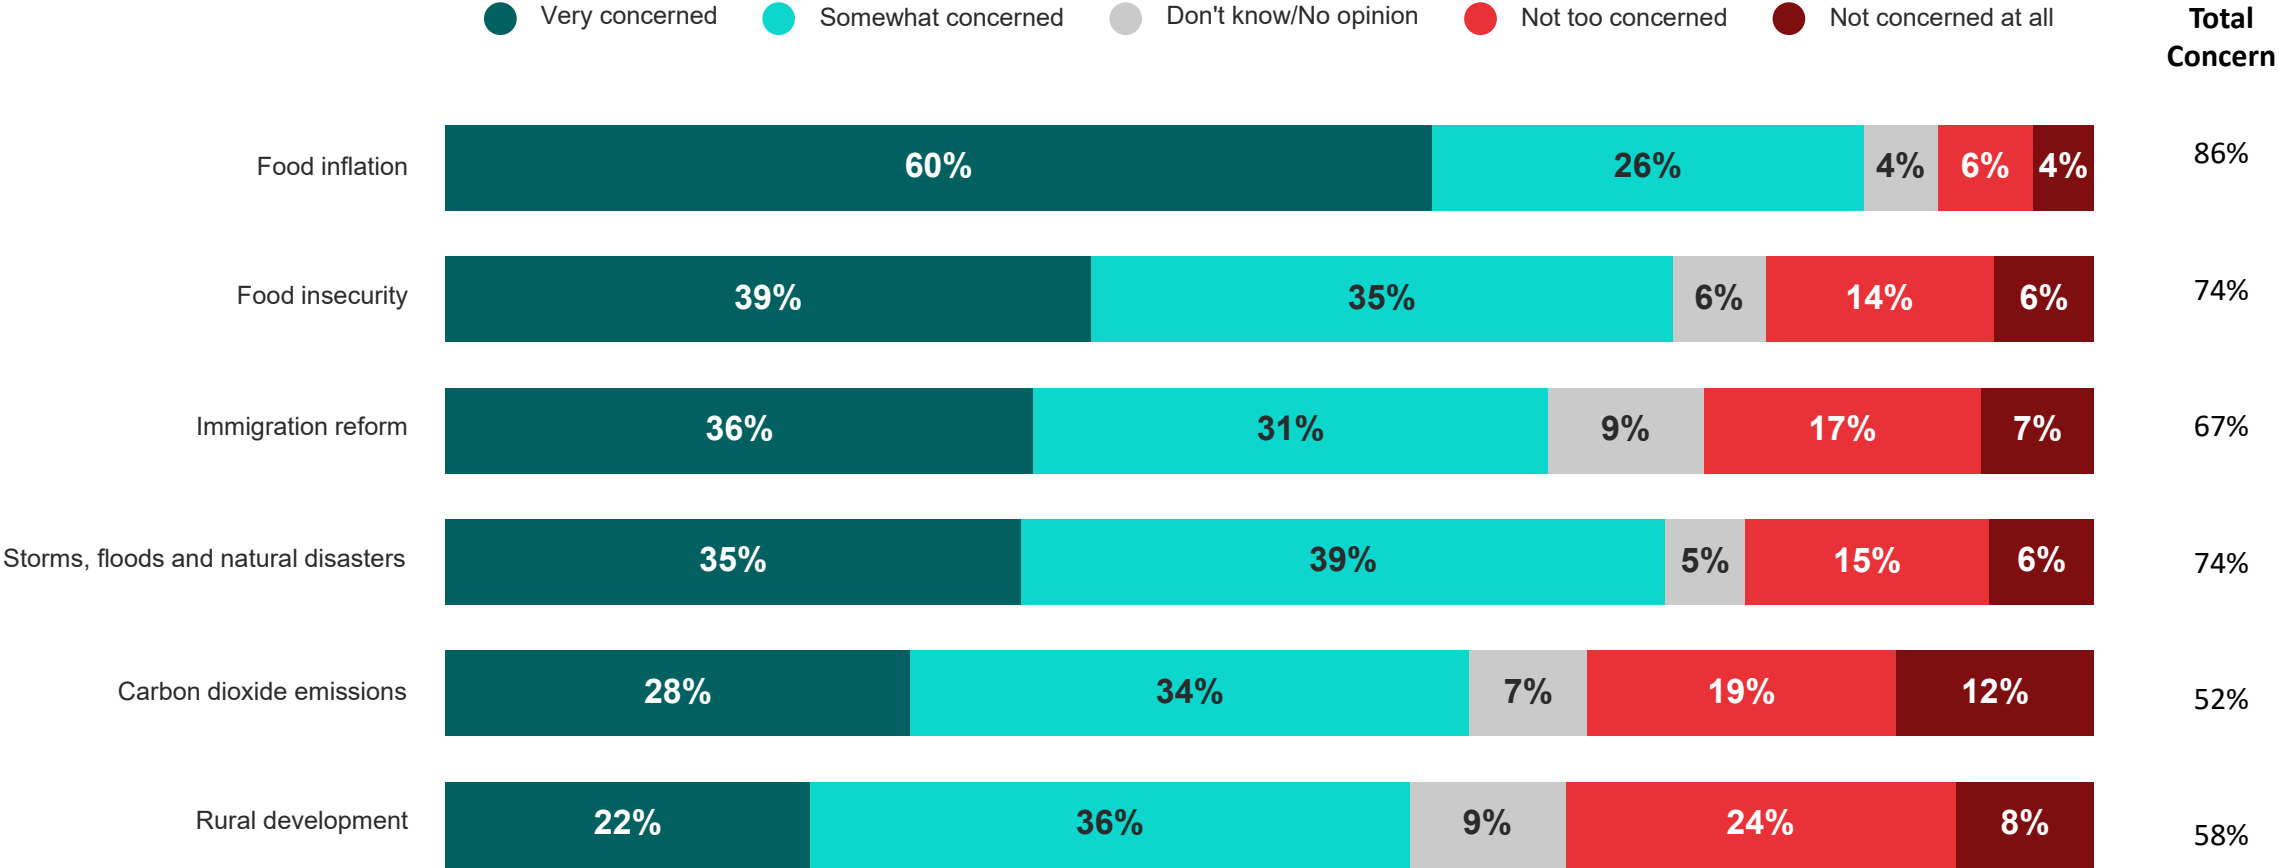

Support would drop significantly if the farm bill discontinued funding to address food insecurity.

Most adults are *very concerned* about food inflation.

How concerned are you, if at all, about each of the following in the U.S.?

TOP PERFORMING MESSAGES

- **RISK MANAGEMENT** Managing risk on the farm is critical to keeping food on our tables. We all depend on the success of American agriculture, so it's important for America's farmers and ranchers to be supported by strong farm programs as they face weather disasters, high supply costs and inflationary pressures.
- **NUTRITION PROGRAMS** America's farmers and ranchers supply more than 4 billion meals annually thanks to the farm bill's nutrition programs which ensure the most vulnerable among us have access to healthy, affordable food.
- **IMPACT BEYOND THE FARM** The farm bill impact extends beyond the farm by protecting our nation's food supply, providing access to nutrition for low-income families, advancing conservation efforts and spurring innovation through agricultural research.

Farm Bill for America's Families

SUSTAINING OUR FUTURE

Our Mission

Our Mission

To protect America's food security, support future job security, advance environmental sustainability and ensure farmers are able to continue stocking America's pantries.
