PRODUCING SUGAR SUSTAINABLY

Amalgamated Sugar Company's Youth Sugarbeet Grower Program gives young farmers the opportunity to raise 2 acres of sugarbeets on their family farm, providing hands-on experience and fostering a love for sustainable agriculture.

FUN FACT

Idaho sugarbeet growers have reduced pesticide use by 85% and fuel use by 60% over the last 20 years by investing in new technologies.

"If sugar is not profitable, farmers lose more than our farms. We lose our businesses, our investments, and our local economies. **A strong sugar policy supports our families and our communities by giving us an opportunity to survive against foreign subsidies.**"

- Galen Lee, Sugarbeet Farmer, New Plymouth, Idaho
