## FUN FACT

**Minnesota produces the most sugarbeets of any state in the country.**

## PRODUCING SUGAR SUSTAINABLY

Sugarbeet farmers use seeds coated with targeted disease and pest control treatments, reducing the need for pesticide applications and resulting in a healthier sugarbeet.

"I fell in love with the day-to-day rhythm of the farm; I can't imagine any other life. **But if it weren't for sugar or a strong U.S. sugar policy, I don't know how I could continue my fifth-generation farm.**"

- Rachel Arneson, Sugarbeet Farmer, Halstad, Minnesota
